EDUCATION

Chernivtsi Institute of Trade and Economics of KNUTE

2011 - 2012

M. Sc. Degree in Finance with honors

ABOUT ME

Experienced QA Engineer with skills in manual testing of web and mobile applications. More than five years of experience allows me to create detailed test plans, maintain testing documentation, and execute complex test cases.

Experienced in functional, regression, exploratory, API, and mobile testing on Android and iOS platforms, including testing on real devices and emulators.

Also, my experience in testing products developed in different business domains helps me communicate effectively with development teams and contribute to improving product quality and release stability.

WORK EXPERIENCE

SoftServe

Nov 2020 - Present
